THREE DECADES. STILL MOVING.

DJ / PRODUCER / A&R / LABEL FOUNDER

From a studio session with David Guetta in the early ’90s to founding SKYLINE ARCHIVE today — three decades of electronic music, a new chapter. A producer, remixer and former A&R at Virgin France and Indépendance Records, Phil Rodriguez connects melodic and progressive club music with deep experience in the booth and studio.

His catalogue includes remixes for Da Fresh as Marc Henry and Pole Folder with 2 Guys On The Rock, with productions featured by Tiësto and Carl Cox. Founded in 2026, his label SKYLINE ARCHIVE brings together new music, selected archive recordings and collaborations. Its first vinyl project, SALP001, features three tracks mastered by Matt Colton at Metropolis Studios, London.

THE HYPNOTIC IDENTITY

ONE ARTIST. TWO IDENTITIES. ONE DJ.

Marc Henry is the acid and techno identity of Phil Rodriguez, combining hypnotic textures, progressive movement and decades of dancefloor experience.

“Neurotronik (Acid Mix)” featured on Tiësto’s Club Life #160 and Steve Parry’s Red Zone playlist on Liverpool’s Juice 107.6 FM, with professional feedback from Dave Seaman. His remix of Da Fresh’s “Sneaky Sound” was released on Big Alliance Records in 2010. Today, SKYLINE ARCHIVE connects this history with “Neurotronik (Analog Acid Rework)” and his rework of Wippe Roma’s “Saga”, both mastered by Matt Colton for SALP001.
